

My Recruiting Center

Recruiting just got a lot easier, with access to My Recruiting Center. You can post your job to major job boards like Career Builder, Monster, Craigslist, and LinkedIn, as well as hundreds of niche and regional job boards with a click of the mouse. My Recruiting Center includes an Applicant Tracking System (ATS) that receives, screens and stores the potential employees' application and resume. It's simple to use, affordable, and powerful enough to support all of your pre-employment hiring needs.

Each posting remains active for 30 days (14 days for Monster) and includes:

- A job template library to help you get started
- Pre-built applicant screening questions with ability to customize
- Applicant ranking based on their screening question answers
- Standard online applications
- Optional resume upload or cut-and-paste
- Applicant management and communication
- An application link that you can embed on your company website or other locations

You may select from 4 standard packages, or choose from the A La Carte Advertising menu. The standard packages range from \$195 to \$425, and post to 3 popular job boards. You can add an A La Carte post to your package, or create your own package by choosing as few or as many as you like from the menu. Pricing varies for each A La Carte site, and there is a \$25 service fee for each selection. A \$99 Job Posting Fee applies to each job (includes a posting to indeed.com) but is substantially reduced for high volume recruiters.
